Effective Date: **February 1, 2017**

ASSA ABLOY, the global leader
in door opening solutions

About HES® and Folger Adam®

About

Headquartered in Phoenix, Arizona, **Hanchett Entry Systems, Inc.® (HES)**, an ASSA ABLOY group company, continues our commitment to being the leading provider of electro-mechanical locking solutions.

For more than 40 years, we've been raising the standards of the industry developing new solutions like the 8500 concealed electric strike for mortise locksets, the versatile 1006 Series, and the surface mounted, windstorm rated 9600.

Our Folger Adam product line, marketed by HES, continues to

offer high quality industrial grade electric strikes to satisfy a variety of needs for extra heavy duty durability and tamper resistance.

An Industry Leader

Backed by the strength of ASSA ABLOY, the global leader in door opening solutions, HES continues to grow, leading the industry in quality, service and innovation.

Our Customers Come First

Above all else, HES believes in meeting the needs of our customers with products that solve their specific needs.

Our success has been built on

listening to you—and delivering products and services that help advance your business. We value long-term relationships with our suppliers and sales partners, seeking out groups that command respect in their local markets and operate with the highest level of professionalism.

On behalf of our entire team, thank you for using HES products.

Customer Support

Do you have a question concerning HES, but don't know who to contact? We're here to help, and you can contact us in the following ways:

- Talk to us. Call us at **800.626.7590** to speak to a Customer Support representative from 6:00 AM to 4:00 PM Mountain Standard Time.
- Email us at **customer.care@assaabloy.com**.
- Visit **www.hesinnovations.com** to learn more about HES products and services.

durable, high-quality electric strikes

What's New for 2017

The HES 1500 and 1600 Series Electric Strikes have set a new standard in the industry by offering dynamic integrated adjustability and field configurable options compatible with any cylindrical or mortise lock. The modular design of the platform makes stocking and installing easier with interchangeable faceplates and accessories. For the first time, the aesthetics of an electric strike are complimentary to other surrounding door hardware and blend in with the opening due to the fully finished design available in 7 finishes.

HES 1500 Series Electric Strike

The HES 1500 Series electric strike is more than a new heavy duty, low profile solution for latchbolt locks. It accommodates every brand of cylindrical or mortise lock designed to work with a 4-7/8" strike plate.

1600 Series Electric Strike

The HES 1600 Series heavy duty electric strike is the most advanced electric strike available on the market for cylindrical latchbolt and deadbolt locks. It accommodates up to a 1" deadbolt with enhanced vertical cavity spacing and will accommodate every brand of cylindrical or mortise lock designed to work with a 4-7/8" strike plate.

Product Changes

613E dark bronze finish replaces the 613 finish for the 1500, 1600 and 7000 Series Electric Strikes.

5204-3: 3" Stackable Lip Extension for the 5200 series electric strike has been replaced by ordering (Qty 3) **5204-1: 1" Stackable Lip Extensions**.

154-MTK: Metal Template Kit has been replaced by the **HESCUT-MTK: Metal Template Kit**. HESCUT-MTK will include all of the same installation templates as the 154-MTK in addition to the new 1500 & 1600 series electric strikes.

K100-621 1st generation and **K100-621** 2nd generation Aperio™ cabinet locks have been replaced by the **K100-622** 3rd generation cabinet lock; replacements will require field modification..

How to Order

Below is an example describing how to order the electric strike systems composed of a strike body, faceplate and accessories.

Part Number Examples

1500C-630-DLMS

Is the part number for a 1500 Series Complete electric strike with select option faceplates included in the box, stainless steel finish and dual lock monitors and strike monitor.

7501-12-612-LBM

Is the part number for a 7500 Series electric strike with fail secure, 12 VDC voltage, satin bronze finish and latchbolt monitor.

1500	C	-	630	DLMS
Strike Series	Complete	Voltage	Finishes	Optional Features
<i>Choose the electric strike series number</i>	<i>Specify a "C" to include select faceplates and hardware in the box</i>	<i>Specify voltage (12 or 24) when ordering a 7000 or 7500 and leave blank for the rest</i>	<i>Choose finish number (find this number on the series catalog page) Complete Pacs are only available in the 630 finish</i>	<i>This item refers to options such as latchbolt monitor or latchbolt strike monitor</i>

Faceplates may be ordered separately as a second line item.

Part Number Examples

1LB-613E

Is the part number for a 1500/1600 Series LB Option Faceplate Kit with a dark oxidized satin bronze finish

501-BLK

Is the part number for a 5200 Series 501 Option faceplate with a black finish.

852M-629

Is the part number for a 8500 Series 852M Option faceplate with a bright stainless steel finish.

FP: 310-2 3/4	\$224	\$317	\$290	\$290	\$258	\$316

For strike body only for the 310-2 3/4, order the 310-1 with 3/4" keeper. See page 24.
For universal accessories, see page 46-47.

REFERENCE NOTES

- Strikes are sold as a complete unit.
- All strikes ship fail secure standard. Please specify "F" for fail safe when ordering, if desired.
- All strikes ship either 24 VDC or 24 VDC standard. Please specify voltage when ordering.
- Monitoring options include LCBMA (detects position of latchbolt in pocket).

Special Notes:

- These products will require relocation of the center line when used with mortise locks. Consult customer support regarding use with the Best 40 series.

310 Series: 310-2 3/4 OB

310-2 3/4 OB ELECTRIC STRIKE MODELS (includes both strike body and faceplate)

310-4-2-F-24D-LCBMA (Fail Safe)	\$1,469	\$1,510	\$1,479	\$1,479	\$1,469	\$1,510

310-4-2 FACEPLATE ONLY

Option	630	605	606	612	613	629
FP: 310-4-2	\$341	\$381	\$348	\$348	\$341	\$381

For strike body only for the 310-4-2, order the 310-1-2 with PK keeper. See page 31.
For universal accessories, see page 46-47.

REFERENCE NOTES

- Strikes are sold as a complete unit.
- All strikes ship fail secure standard. Please specify "F" for fail safe when ordering, if desired.
- All strikes ship either 24 VDC or 24 VDC standard. Please specify voltage when ordering.
- Monitoring options include LCBMA (detects position of latchbolt in pocket).

Special Notes:

- Double-door models are available with four different center-to-center dimensions between latchbolt keepers. Keepers are wide enough to compensate for vertical-rod exit bolts which may be as much as 3/8" (10mm) off center-to-center dimension, either way.
- When using an electric strike in conjunction with a vertical-rod exit device, it is necessary that:

- 1) The bottom rod of the exit device be removed or made inoperative.
- 2) The latchbolt of the exit device be the "Pullman" or beveled type.
- 3) The latchbolt be free-latching and remain projected while the door is open. Mechanisms that hold the latchbolt retracted while the door is open, and automatically release it when the door is closed, must be removed or made inoperative.

310-4-x Series: 310-4-3, 310-4-30

310-4-3 ELECTRIC STRIKE MODELS (includes both strike body and faceplate)

Models & Finishes	630	605	606	612	613	629

REFERENCE NOTES

- Strikes are sold as a complete unit.
- All strikes ship fail secure standard. Please specify "F" for fail safe when ordering, if desired.
- All strikes ship either 24 VDC or 24 VDC standard. Please specify voltage when ordering.
- Monitoring options include LCBMA (detects position of latchbolt in pocket).

Special Notes:

- Double-door models are available with four different center-to-center dimensions between latchbolt keepers. Keepers are wide enough to compensate for vertical-rod exit bolts which may be as much as 3/8" (10mm) off center-to-center dimension, either way.
- When using an electric strike in conjunction with a vertical-rod exit device, it is necessary that:

- 1) The bottom rod of the exit device be removed or made inoperative.
- 2) The latchbolt of the exit device be the "Pullman" or beveled type.
- 3) The latchbolt be free-latching and remain projected while the door is open. Mechanisms that hold the latchbolt retracted while the door is open, and automatically release it when the door is closed, must be removed or made inoperative.

310-6 Series: 310-6-2, 310-6-3

310-6-2 ELECTRIC STRIKE MODELS (includes both strike body and faceplate)

310-6-3 FACEPLATE ONLY

Option	627	612
FP: 310-6-3	\$350	\$555
<i>For strike body only for the 310-6-3, order the 310-1-3 with PK keeper. See page 31. For universal accessories, see page 46-47.</i>		

REFERENCE NOTES

- Strikes are sold as a complete unit.
- All strikes ship fail secure standard. Please specify "F" for fail safe when ordering, if desired.
- All strikes ship either 24 VDC or 24 VDC standard. Please specify voltage when ordering.
- Monitoring options include LCBMA (detects position of latchbolt in pocket).

Special Notes:

- Double-door models are available with four different center-to-center dimensions between latchbolt keepers. Keepers are wide enough to compensate for vertical-rod exit bolts which may be as much as 3/8" (10mm) off center-to-center dimension, either way.
- When using an electric strike in conjunction with a vertical-rod exit device, it is necessary that:
 - 1) The bottom rod of the exit device be removed or made inoperative.
 - 2) The latchbolt of the exit device be the "Pullman" or beveled type.
 - 3) The latchbolt be free-latching and remain projected while the door is open. Mechanisms that hold the latchbolt retracted while the door is open, and automatically release it when the door is closed, must be removed or made inoperative.

REFERENCE NOTES

- Strikes are sold as a complete unit.
- All strikes ship fail secure standard. Please specify "F" for fail safe when ordering, if desired.
- All strikes ship either 24 VDC or 24 VDC standard. Please specify voltage when ordering.
- Monitoring options include LBMLCM (detects position of latchbolt in pocket and monitors internal strike mechanism to tell if strike is in locked or unlocked position).
- The 742-75 is designed to work with a variety of mortise locks without deadbolts, including the Schlage L9000 and Yale 8800 without relocating the strike prep in the frame. Consult customer support regarding use with Best 40 series.
- **Models: 712-75, 732-75, 742-75 (LBMLCM)** Compatible with SARGENT 78/8200 Series or BEST 40 Series mortise lock with a 3/4" latchbolt, consult customer support regarding use with other manufacturers. When using with a 3/4" keeper latchbolt detection will be dependent on the door gap not exceeding 1/8" in order to ensure functionality.

HES Integrated Products

Powerful access control in a simple package

Experience the convenience of an electric strike with your choice of an iCLASS or Prox integrated card reader. HES Integrated Products combine any HES electric strike with a card reader, latchbolt monitor and door position switch for one-box convenience. HES Integrated Products conceal all components in the frame for easier installation, better tamper resistance, higher security and superior aesthetics. Engineered to work with any Wiegand-compatible controller, these versatile units easily integrate with most access control systems.

Terms & Conditions

Standard Terms & Conditions

The following Terms and Conditions ("Terms") apply to the sale by Hanchett Entry Systems, Inc. ("HES") of HES and Folger Adam products and services ("HES products"), an ASSA ABLOY group company.

All transactions are subject to the latest published Terms except to the extent modified by a written agreement between the purchaser and HES executed prior to an accepted order. The purchaser agrees that HES' acceptance of any purchase order delivered by purchaser is subject to and conditioned upon these Terms. Purchase orders, quotation requests, or acknowledgements which have clauses contrary to these Terms are not binding on HES, unless specifically approved in writing by an authorized agent of HES. No order shall be binding on HES until received and approved by HES. HES expressly reserves the right to correct clerical, stenographic, and other obvious errors at any time.

Pricing

All prices are subject to change without notice. No prices are guaranteed. All shipments will be made at prices prevailing at the time of acknowledgment.

Payment Terms

Standard terms are net 30 days of invoice date.

Credit Terms

Credit terms must be established by completing an HES credit application and submitting it to HES for approval. Accounts not paid within 30 days of the date of the invoice will be considered past due, with interest accruing at 2% per month beginning on the 31st day after the date of the invoice. An order received on an

account which has not been paid within 45 days from the date of invoice will not be processed until the account is current. An account remaining unpaid 60 days after the date of the invoice may be referred for collection and credit will be cancelled. HES reserves the right to revoke any credit extended to a purchaser because of purchaser's failure to pay for any goods when due or for any other reason deemed good and sufficient by HES, and in such event all subsequent shipments shall be paid for on delivery.

Freight Terms

All goods are delivered for shipment from the HES plant in Phoenix, Arizona. Purchaser agrees to pay the trucking, railway and freight charges on the goods from the point of shipment to the destination. Purchaser assumes the risk of loss or damage to the goods while in transit from the point of shipment.

Delivery

Delivery is contingent upon conditions at time of order and is subject to change. HES shall not be liable for failure or delay in shipping goods if such failure or delay is due to an act of God, war, labor difficulties, accident, inability to obtain containers or raw materials, or any other causes. Any claims of shortages must be made within 30 days of shipment and are subject to approval. HES reserves the right to make delivery in installments. Installments shall be separately invoiced and paid for when due, without regard to subsequent deliveries. Delay in delivery of an installment shall not relieve the purchaser of its obligation to accept remaining deliveries.

Changes & Cancellations

Changes to or cancellations of orders must be made in writing and

delivered by email, fax or regular mail. Cancellations made after HES has issued an order acknowledgment are subject to HES approval, and are subject to a \$25 processing fee in addition to any cost incurred by HES as a result of the original order.

Warranty

HES products are generally governed by an express, limited warranty ("Warranty"). All new HES products are warranted to be free from manufacturing or design defects for a period, from date of manufacture, as follows:

1 Year 'Hassle-Free' Guarantee:
All HES products, including all Series electric strikes, electromechanical locks, security controls, power supplies and electrical components.

Mechanical Components Warranty:

- 3 Years: HES 7000 Series electric strikes; 610 and 660 electromechanical cabinet locks
- 3 Years: HES integrated cabinet locks
- 5 Years: HES 1006, 4500, 5000, 5200, 7500, 8000, 8300, 8500, 9400, 9500, 9600 and 9700 Series electric strikes; all Series Folger Adam electric strikes
- Lifetime: HES Integrated electric strikes

Electrical Components Warranty:

- 1 Year: All Series HES electric strikes and electromechanical cabinet locks
- 2 Years: HES integrated cabinet locks
- 3-5 Years: Installing a SMART Pac III power controller with any new product extends the 1 year warranty on electrical components, including the SMART Pac III, to the 3-5 year warranty term applicable

Terms & Conditions

to each Series mechanical components as outlined above

- 5 Years: All Series Folger Adam electric strikes

Lifetime: Integrated products. The scope of this Warranty shall be limited to the replacement, but not installation, of the defective products. This Warranty is valid in the USA and Canada only. This Warranty also does not apply to products that have been misused or damaged by accident or by any acts of humans (other than HES personnel), war, terrorism, animals, pressure, biological, nuclear, or chemical agents, nature or the government or altered or repaired outside the HES factory. The purchaser accepts the products "as is". HES MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED; AND ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH EXCEED THE LIMITS OF THE FOREGOING WARRANTY, ARE HEREBY DISCLAIMED BY HES.

Procedure for Claiming Under Warranty or Returns

Requests to return HES products should be made within 18 months from date of order and HES reserves the right to request date of manufacture and other product information. On goods returned for customer convenience, HES also reserves the right to request original packaging. An RMA (Return Material Authorization) must be obtained from authorized personnel of HES before any HES product may be returned. Upon inspection by HES, a decision will be made to repair, replace, or issue a credit for the HES product. This decision will be made solely by HES in accordance with the provisions of these Terms. Obsolete products will not be accepted for return. Transportation charges and

insurance on all returned materials must be prepaid by the purchaser. On goods returned for customer convenience, when the purchaser returns materials in compliance with these Terms which are accepted by HES, the purchaser may be issued a credit for 65% of the purchase price, with 35% charged by HES for handling and reprocessing. All refunds will be in the form of a credit.

Limitation of Liability

To the extent permitted by law, HES and its agents and affiliates (collectively "HES Parties") shall not be responsible for, and the purchaser hereby assumes the risk of, and hereby releases HES for any damages or injury whatsoever (including, without limitation, incidental or consequential damages, damages for lost profits or business interruption, and punitive damages) caused by or related to any use of HES Products, regardless of any error, omission, interruption, defect, failure of performance, delay in operation or transmission, even if HES has been advised of the possibility of such damages. If, notwithstanding the foregoing limitations, HES has any liability to the purchaser despite the foregoing limitations, the purchaser agrees that the HES' total liability to the purchaser for all losses, damages, and causes of action, whether in contract, equity, tort (including without limitation, negligence and gross negligence), or otherwise, will not exceed the amount the purchaser paid to HES for the HES products. Any action or arbitration brought against the HES pertaining to or in connection with the HES Products must be commenced and served upon HES within one (1) year after the date the cause of action arose, and not thereafter. Failure to abide by such deadline

will constitute a complete defense for the HES Parties to the purchaser's claims.

No Third Party Liability

If the purchaser uses the HES Products on behalf of others or provides to others any products referenced herein, the HES Parties shall have no liability to such persons whatsoever, and the purchaser agree to defend and indemnify the HES Parties from any and all claims and demands asserted against them, and from any legal fees, costs and other expenses that the HES Parties incur therewith.

Governing Law & Jurisdiction

These Terms are governed by the laws of the State of Arizona, U.S.A. but without regard to its principles of conflict of laws. For any interpretational disputes relating to, or claims arising from, these Terms, the purchaser agrees to the exclusive jurisdiction of the Superior Court of Arizona in Maricopa County, provided, however, that such restriction shall not apply to legal actions initiated or brought by HES. Upon request by HES, all disputes concerning and claims arising from the foregoing shall be referred to binding arbitration in Maricopa County, Arizona by an arbitrator selected only by the Superior Court of Arizona in Maricopa County. The purchaser hereby waives its right to a jury with regard to claims against the HES Parties hereunder. The language used in these Terms shall not be construed.

Trademark Usage: ASSA ABLOY Americas

The following policy (“Policy”) of ASSA ABLOY Americas (“ASSA ABLOY”), and all of its affiliated group companies (collectively, the “Group Companies”), applies to the use of certain intellectual property of all such Group Companies, including all trademarks, names, logos, product images, and related information (the “ASSA ABLOY Marks”). ASSA ABLOY Marks are proprietary and critical to the success of ASSA ABLOY and the Group Companies, and may only be used in strict compliance with this Policy.

This Policy covers any person or entity reselling any product of any Group Company with the consent of such Group Company (each, an “Approved Reseller”). Each Approved Reseller has a non-exclusive right to use certain of the ASSA ABLOY Marks relating to any of the Group Companies for which it is an Approved Reseller, subject to the following conditions:

1. Approved Reseller’s use of ASSA ABLOY Marks must be truthful, fair, and not misleading;
2. Approved Reseller’s advertising must clearly indicate that it is advertising of the Approved Reseller, and is not advertising of ASSA ABLOY;
3. Approved Reseller may not use any ASSA ABLOY Marks as part of or in connection with a domain name;
4. Approved Reseller’s advertising must not imply or suggest an association between the Approved Reseller and ASSA ABLOY other than that of buyer and seller;
5. Approved Reseller’s use of ASSA ABLOY Marks must be a positive representation of ASSA ABLOY, the Group Companies, and their products;
6. Approved Reseller’s trade name must be more predominant on Approved Reseller’s advertising than the ASSA ABLOY Marks;
7. Approved Reseller’s use of ASSA ABLOY Marks must include the trademark symbol ® or TM, as appropriate, along with the following trademark legend printed in legible text on the Web page or document containing ASSA ABLOY Marks: “HES and Folger Adam Electric Door Controls are trademarks or registered trademarks of ASSA ABLOY, Inc. or one of its affiliates in the United States and other countries.”;
8. Approved Reseller must not make modifications of any ASSA ABLOY Marks; and
9. Approved Reseller may use only ASSA ABLOY Marks associated with the Group Companies for which it is an Approved Reseller (e.g., an Approved Reseller that sells Group Company X products but not Group Company Y products may use Group Company X trademarks in connection with its sale of Group Company X products, but may not use Group Company Y trademarks).

ASSA ABLOY reserves the right to review Approved Reseller’s usage of ASSA ABLOY Marks at any time and may:

- a. require changes to the use of ASSA ABLOY Marks at any time in its sole discretion, which changes must be implemented within 30 days of written notice to Approved Reseller;
- b. condition the use of ASSA ABLOY Marks on ASSA ABLOY’s prior approval of such use, which approval may be withheld in its sole discretion;
- c. revoke permission to use ASSA ABLOY Marks at any time for any or no reason upon 30 days prior written notice to Approved Reseller; and
- d. revoke permission to use ASSA ABLOY Marks immediately upon notice to Approved Reseller in the event Approved Reseller is in violation of this Policy, or of any other agreement with ASSA ABLOY or any Group Company.

Approved Reseller’s right to use ASSA ABLOY Marks in no way conveys to Approved Reseller any proprietary or economic interest in any ASSA ABLOY Marks.

Use of ASSA ABLOY Marks in violation of this Policy may result in severe civil and criminal liabilities. ASSA ABLOY will vigorously enforce this Policy by seeking all appropriate legal remedies, including, but not limited to, pecuniary damages and injunctive relief.

HES Cabinet Locks Secure. Convenient. Versatile.

Pharmaceuticals

Lab Supplies

Expensive Equipment

Student Records

Convenient solutions for upgrading the security of school health and administrative offices.

MONITOR AND CONTROL

Extend access control to cabinets, lockers and drawers, giving you control and monitoring of access to medications, confidential student records and expensive lab supplies and equipment.

INTEGRATE WITH EASE

Single-card solution that works seamlessly with your new or existing access control system, simplifying installation and management.

SIMPLE TO MANAGE

Administrators have a single interface for access control and real-time alarms of access events. A single credential replaces keys or PIN codes for users.

VERSATILE PROTECTION

The K100 utilizes wireless Aperio® technology that supports low or high frequency cards. The K200 utilizes a multi-technology reader with hardwired Wiegand wiring.

Visit hesinnovations.com to find the right cabinet lock for your project.

NOTE: This chart is offered as a convenience only. Reference should be made to the individual manufacturer's catalogs for complete data as to exact equivalents. There may be some variation in physical size, electrical characteristics and durability between strikes of different manufacturers. HES assumes no liability for differences between items compared. When compatibility is a concern, contact Customer Support at 800-626-7590 for application assistance. NOTE: The 109 trim adapter may be required for a neater appearance in retro fit applications where the strike lip dimensions exceed 3-3/8".

NOTE: This chart details the HES and Folger Adam products that can replace competitors products, but not necessarily the reverse.

	Rim mounted Rim mounted exit device up to 3/4" throw	All Manufacturers	7000-783, RF7000-783, IC7000-783, 7000-786, RF7000-786, IC7000-786 9500, RF9500, IC9500 9600, RF9600, IC9600 310-4
	Rim mounted Rim mounted exit deadbolt	Corbin Russwin (Secure Bolt), Yale (Square Bolt)	9700 310-4S

- HES and Folger Adam electric strikes are designed to be installed in accordance with the ANSI/BHMA A156.31 4-7/8" jam preparation.
- When accommodating a cylindrical lock, the electric strike is to be installed centerline to centerline.
- When accommodating a mortise lock, the centerline of the electric strike is to be installed 3/8" above the centerline of the mortise lock, except as noted for individual strikes. Folger Adam 712 series and 310 series will need special alignment with used with a mortise lock.
- HES electric strikes are all non-handed and designed for installation in hollow metal, concrete filled metal, aluminum and wood jambs.
- Folger Adam electric strikes are all non-handed and designed for installation in hollow metal, aluminum and wood jambs.
